**Mary Kipp:** I highly recommend this company! What a good experience dealing with this company! From the time Jen answers the phone to when Zach comes to do the job it was great. They are straight forward and great at explaining what needs to be fixed. They were careful with the grass and laid it all back like they are landscapers! They left it so clean you barely notice they were there. I definitely will be call Orlando Septic Services for any of our septic needs.

**Deborah Whitman:** Excellent Work! After a septic fiasco with another vendor, we ended up working with Zack Bicknell at Orlando Septic Service. Him and his brother Joe run the business and these guys are fantastic! Very reasonable on price, professional, timely response, and best of all no hustling. We had the solid tank pumped @ \$215 (after veteran discount) and installed risers \$150ea., in wet and solid tank. Thank You for taking care of us, we will definitely call again for future needs. Highly recommend them for septic work. 😊😊

**Deb Scott:** "I will pass your name on to all my neighbors. I am so thrilled that your company was so honest and they did such a great job!!! So glad I got a second opinion!!! Thank you very much!!! We will see you in a couple years for a pump out!!"

**Lindsey Sawyer:** "Awesome service! Joel was friendly and efficient on the phone when scheduling our service. Called at 830am and the gentleman (who for the life of me I can't remember the name of!) arrived at 11am to pump our tank. Turns out we needed more than just a pump, but the problem was quickly resolved and service was excellent! Price was reasonable considering the amount of labor involved and this Florida heat! Would definitely recommend over the "bigger" septic companies in the area:)"

**Carmen Garcia:** "Orlando Septic Services are Amazing! Zach had great customer service! After describing our problems to Jen over the phone, they gave us a quote. Zach fixed one of the problems that rectified the other and they charged us less than they said. They didn't hustle us and you don't find that every day. They were very good about cleaning up after themselves including fixing any landscape that had to be moved. They truly care about their customers! WE WILL always use ORLANDO SEPTIC SERVICES! They are a company we can trust! Thank you Zach for your hard work and for your service!"

**Thuy Bich Le:** "I totally agree with other review. Orlando Septic Services company is honest and reliable. I spoke with Joe and Jen regarding my septic problem. They are so nice and caring. The next early morning, Zack called and arrived on time as schedule. He is knowledgeable, attentive, kind and honest. He went out of his way to help his customer. I truly appreciate his work ethic and this company will have repeat bussiness from me and my friends. Thanks again for the excellent service, Zack."

**Amy Tolos:** “Seriously the MOST FRIENDLIEST septic tank company that there is. From the very 1st phone call they were professional and friendly...to the actual “pumping process”. Joe explained the process and was quick and efficient. I am so going to spread the word about this company...this was our 1st time using them, and will definitely NOT switch back to the “other” company that we have used in the past, who I have nothing positive to say about them. “If your “shitters” full call Orlando Septic Service for relief, they are just plain ol’ awesome”

**Barley N:** “Best service really friendly guy, will recommend to my friends and neighbors!”

Joe wouldn’t give up and was determined to clear the drain which was full of magnolia tree roots. Anyway it was a great to have the job done right and a full explanation of how to keep the system functioning properly. ”

I felt that their professionalism was top notch: they were on time, did exactly what they said they would do and did the work in a timely manner. The quoted price was the price I paid, no added costs snuck in after the fact...they didn't play any games.

If you need septic work done, you will not find a better company. Joe will give you an honest assessment at a fair price all backed by great customer service.”
